

Guarantees for dependable service

- We guarantee you priority repair service 24 hours a day, 7 days a week. When you call us, you will speak with a live person, not a machine.
- We will always leave your house as clean as we found it.
- All parts replaced by Vaughn Oil are covered by a one-year warranty, as long as your service plan remains in effect. If the part needs to be replaced before the warranty expires, you pay nothing for the repair.
- We stock our vehicles with thousands of dollars' worth of parts so we can fix most problems in one visit.
- We always use new parts for repair, and professional testing equipment, not guesswork, to evaluate your system.
- If another service call delays us when going to your home for an appointment, we'll always call and let you know.

Protect Your Comfort

Service and Savings — Guaranteed.

These days, very few people can afford the time or inconvenience that comes with a broken heating system. Most repairs can cost hundreds of dollars, and the breakdowns seem to happen at the worst times.

That's why most of our customers choose one of our service plans to protect their comfort—and to save money.

We give you a range of options designed to fit your needs and budget. All you have to do is choose the level of protection that makes you feel most comfortable.

Once you're enrolled, you can depend on us to:

- ▶ **help protect you against big, unexpected bills**
- ▶ **get to you fast if you have a problem**
- ▶ **fix your equipment right the first time**
- ▶ **keep your system running at its peak efficiency**

So choose your plan and rest easy. You'll have the security of knowing we're just a phone call away.

Loyalty Dollar\$

Each year you purchase a plan, you earn \$25 dollars toward the replacement of your home comfort equipment, up to \$500. So you're not just helping yourself now, you're investing in your future comfort. Here's how much you can save:

boiler	\$350	air handler	\$200
furnace	\$350	oil burner	\$100
generator	\$250	water heater	\$100
oil tank	\$200		

Questions you may have:

Q: What are the biggest reasons for having a service plan?

A: For peace of mind and savings. All service plan customers receive priority service. If you ever have a problem, we'll be there fast, and we'll get you up and running quickly for much less than it would have cost otherwise. Depending on the plan you choose, you can save 15% on all covered repairs or get free repairs on covered items. And when your system is tuned up, it will prevent many breakdowns and guarantee top efficiency.

Q: Which plan is best for me?

A: Our Efficient Comfort Plan is perfect for oil customers who want good protection but who are willing to cover much of the cost if they need a repair. Generally we see customers with newer systems choose this plan. Our

Secure Comfort Plan is best for oil customers with somewhat older systems who want to eliminate the cost of most repairs. Both plans include a comprehensive annual tune-up.

Q: How do I save?

A: Consider this: If you get an oil tune-up alone, it would be \$150 + parts. If you need a repair, it would typically cost you \$300–\$500 for most problems—even more if we come after hours. Your plans either save you part or all of this money on covered items.

Q: Who will come to my home to do repairs?

A: We send only our own team of expert technicians. They are skilled at repairing all types of heating equipment. Their credentials are among the best in the industry.

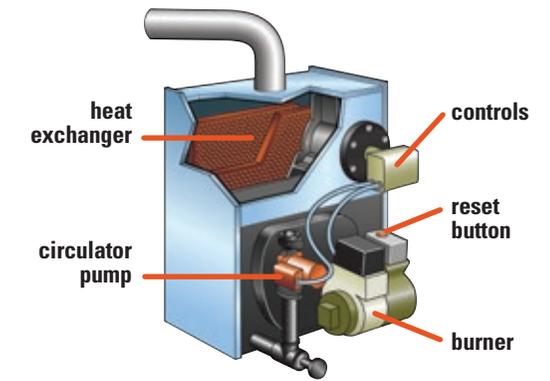

Q: How do I get started?

A: Call our office and we can go through your options. If you choose the Secure Comfort Plan, an inspection is required before coverage goes into effect the first time.

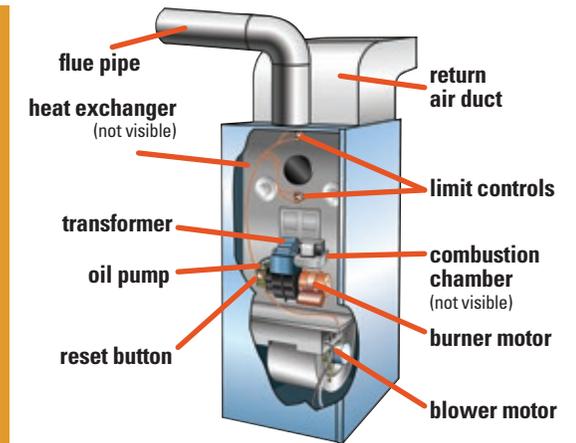

Please call us with any questions you might have about all our great options.

Heating Oil

Efficient Comfort Plan

- annual tune-up
- 15% off all repairs
- priority service
- \$25 Loyalty Dollar\$/year

Secure Comfort Plan

- annual tune-up
- no charge for listed repairs*
- priority service
- \$25 Loyalty Dollar\$/year

CONTROLS

- CAD cell eye and harness
- Emergency switch
- Primary control
- Thermostat, non-programmable type

WARM AIR SYSTEMS

- Blower fan belt
- Blower motor (up to 1/2 hp)
- Blower motor pulley
- Blower pulley
- Burner end cones
- Fan control
- Limit control

BURNER REPLACEMENT PARTS

- Burner air tube
- Burner coupling
- Burner drawer assembly
- Burner end cones
- Burner fan
- Burner motor
- Burner pump
- Burner relay

- Burner service switch
- CAD cell and harness
- Delayed oil valve
- Electrodes
- Ignition leads
- Ignition transformer
- Nozzle
- Nozzle adapter
- Porcelain insulators
- Primary control

HOT WATER SYSTEMS

- Air vent (excludes microbubble absorbers)
- Back flow preventer valve
- Boiler aquastat
- Boiler pressure regulator valve
- Boiler relief valve (not to exceed 30 psi)
- Cartridge type circulator pump (1)
- Circulator coupling
- Circulator flange bolt set
- Circulator flange gaskets
- Circulator motor (1)
- Circulator motor mounts
- Circulator pump relay (up to 3 zones)

Comprehensive Heating Tune-up

- clean heating unit, vent pipe and chimney base
- adjust burner for maximum efficiency
- clean and adjust electrode and nozzle assembly
- lubricate all motors, bearings, fans and circulators
- replace oil nozzle and oil filter
- test and adjust all safety and operating controls
- inspect flue pipe, barometric damper and combustion chamber
- test oil pump operation
- change air filter(s), if applicable
- check oil tank and lines
- inform customer of equipment condition

Tune-ups are performed once during the service agreement term, during regular working hours.

SERVICES

- Bleeding of radiators (one time)
- Purging of heating system (one time)

OTHER

- Blast tubes
- Bulkhead fittings
- Burner jet lines
- Draft regulator (up to 7 inch)
- Electric oil valve
- End cone
- Flue pipe (galvanized jointed only)
- Flue pipe (up to 7 inch)
- Fuses
- Pressure controls
- Pump gasket
- Retention heads
- Service switch
- Switches
- Thermal switch
- Transformers

FUEL SUPPLY PARTS

- Fuel filter cartridge
- Fuel filter cartridge gasket
- Fuel pump
- Fuel pump bleeder
- Fuel pump couplings
- Fuel pump gasket
- Fuel pump strainer
- Fusible oil valve at the burner
- Oil tank fill cap
- Oil valve coils
- Oil filter
- Oil line valve (in line)
- Oil tank vent cap

*Applies to parts listed here; parts not listed may be eligible for a 15% discount.

Terms and Conditions

1. Efficient Comfort Plan covers scheduled tune-up and provides a 15% discount on diagnostic and repair charges.
2. Secure Comfort Plan covers scheduled routine maintenance, diagnostic charges and repair charges, including labor and parts listed in the plan. The Secure Comfort Plan also includes a 15% discount on all not-included parts.
3. Service plan customers receive priority scheduling, ahead of nonplan customers. Vaughn Oil will provide dependable, prompt emergency service 24 hours a day, 365 days a year.
4. Secure Comfort Plan is available only for customers in our automatic delivery program. It becomes effective only after inspection of equipment and systems by Vaughn Oil. All equipment must be brought up to standard before it is accepted for a service plan. Plan covers residential systems with a firing rate not to exceed 2.50 gallon per hour. Advance payment does not make a plan become effective. If unit becomes obsolete or is more than 20 years old, it may become ineligible for continued coverage under the Secure Comfort Plan. Vaughn Oil will not be responsible for repair or replacement of parts or equipment that is obsolete or no longer available.
5. Service plans are in effect for 12 months and are self-renewing each year thereafter at prevailing rates, unless either party cancels in writing within 30 days of the renewal date. Vaughn Oil will indicate its acceptance of a plan by issuance of an invoice.
6. A service plan is transferable to a new owner at the option of property seller, or the plan may be voided at seller's request, but there will be no refund of unused portion of the plan.
7. Vaughn Oil's responsibility under a service plan will automatically cease if fuel, service or any parts or equipment covered by the plan are

procured from another source or if customer's account is past due.

8. To help hold down the price of service plans by eliminating unnecessary service calls, plan customers are expected to make sure thermostat is properly set and to check all switches and circuit breakers or fuses. Customers are also expected to monitor condition of air filters. Filters will be cleaned or replaced, as needed, during scheduled routine maintenance.

9. Replacement of entire unit or the following systems and devices are not covered under either plan: flues, duct systems, radiators, registers and grills, and heating system piping, other than piping near boiler. The following services are not covered: electrical service from circuit breaker to unit, gas and water leak repairs.

10. The following items are not covered under either plan: heat exchangers, complete burners or filters. If heat exchanger is covered under a manufacturer's warranty, labor and materials for a replacement system are included.

11. Calls to replace dirty filters, balance heat to individual rooms and repair radiators will be considered chargeable calls.

12. Secure Comfort Plan includes only repair and replacement of parts that are specifically listed in the plan and that are defective due to ordinary use or wear and tear, based on the judgment of Vaughn Oil. Vaughn Oil shall be released from liability for failure or delay to provide, within a reasonable period, service called for under the plan when failure or delay results from strike or other labor disturbance; fire, flood, lightning or other acts of God; supply shortage of electricity, gas or water; freezing or breaking of pipes; government regulations; extreme weather conditions; unavailability of parts; or improper operation, negligence or misuse of covered equipment. If such service is requested, it will be billed at prevailing rates. Plan does not cover parts, labor,

or loss or damage due to fuel flow programs, frozen heating systems/pipes, fire, flood, lightning, acts of God, electrical interruption or power surges, turned off switches or lack of fuel (if not in automatic delivery program).

13. Vaughn Oil reserves the right to cancel any plan without notice and refund the unused portion of the plan.

14. Plan allows coverage during normal working hours, which are Monday through Friday from 7:30 a.m. to 4:00 p.m. After-hours service calls apply to "no-heat" situations only. Other system malfunctions that do not cause the main heating system to malfunction will not be covered during non-business hours. After-hours calls are only covered if you schedule and receive your annual maintenance during each annual service contract period. Failure to get annual maintenance completed may result in after-hours calls being chargeable.

15. Vaughn Oil will endeavor to render prompt and efficient service, but it is expressly agreed that Vaughn Oil shall in no event be liable for damage or loss caused by delay or any loss arising out of the performance of this plan.

16. The obligation to furnish replacement parts is subject to availability through normal supply sources.

17. Annual tune-ups may be scheduled at any time during the service plan year, except between September 15 and December 15. Through a regular program of postcard reminders and follow-up phone calls, Vaughn Oil will make every attempt to schedule the tune-up; however, this responsibility is shared with the customer. Customer must also make the unit accessible to be worked on during normal working hours.

18. Our service plans do not cover environmental clean-up, property damage, waste disposal services or other damages or losses caused by a tank leak or system failure, even if the tank has been tested ultrasonically.

Loyalty Dollar\$

Each year you purchase a plan, you earn \$25 dollars toward the replacement of your home comfort equipment, up to \$500. Below are the maximum amounts you can apply to each type of equipment.

Here's how much you can save:

boiler	\$350
furnace	\$350
generator	\$250
oil tank	\$200
air handler	\$200
oil burner	\$100
water heater	\$100

Regular service hours:

Monday through Friday,
7:30 a.m. to 4:00 p.m.

24-hour emergency service:

Available 365 days a year; applies to loss of heat, severe smoke condition or oil leak.
